Public Notice of Procurement Cancellation

MCA-Kosovo is revising the Energy Storage Project Sub-Activity (1)(iii)(B) of the Compact Program to reflect changes in the scope and nature of the activity, as well as adjustments to the overall project design.

As part of this revision process, it has been determined that the scope and approach of Procurement **No. 24-4008, titled "Recruitment of a Design and Implementation Consultant for Advancing the Participation of Women Entrepreneurs in Kosovo's Clean Energy Transition,"** no longer align with the updated objectives and requirements. Given that the forthcoming revisions will substantially differ from the approach originally envisaged under the current procurement, MCA-Kosovo has decided to cancel this procurement activity.

Therefore, MCA-Kosovo hereby announces the cancellation of the procurement activity No. 24-4008 for "Recruitment for a Design and Implementation Consultant for Advancing the Participation of Women Entrepreneurs in Kosovo's Clean Energy Transition".

We appreciate the interest and efforts of all parties who engaged with this procurement and encourage continued participation in future opportunities aligned with the Compact activities.

For further updates, please visit MCA-Kosovo's official website.
